📇 Profile

React Native Developer with strong expertise in building cross-platform mobile applications for Android and iOS. Skilled in React Native, TypeScript, JavaScript (ES6+), Expo, and mobile-first design principles. Experienced in integrating APIs, mobile payments, and real-time updates. Passionate about delivering smooth user experiences, scalable architectures, and visually appealing apps with modern UI frameworks.

🥷 Skills

- **Programming & Frameworks:** React Native, React, TypeScript, JavaScript (ES6+), Expo, Redux, Zustand
- **Mobile Development:** Native Modules, Push Notifications, Camera & Sensors, Offline Storage
- **Backend & APIs:** REST, GraphQL, Firebase, Node.js (basic)
- **UI/UX:** NativeWind, Tailwind CSS, Styled Components, Figma Integration
- **Testing & Tools:** Jest, Detox, GitHub, GitLab, Postman
- **DevOps:** App Store / Google Play Deployment, OTA Updates (Expo EAS), CI/CD basics
- **Soft Skills:** Collaboration, Problem Solving, Adaptability, Communication

💼 Professional Experience.

Vine Mobility Ltd

Mobile Developer - CO Founder   OCT 2024 - Present | Lagos, NG

Oct 2024 – Present | Remote

- Designed and developed **EV charging mobile applications** with real-time session tracking, payments, and station discovery.
- Integrated **Paystack API** for secure, seamless wallet funding and charging transactions.
- Built geolocation features enabling users to **locate nearby charging stations** with live availability updates.
- Implemented push notifications for **charging status updates and payment confirmations**.
- Collaborated with backend engineers to connect mobile apps with **NestJS/gRPC microservices**.
- Delivered scalable, modular app architecture with **Redux Toolkit + TypeScript** for maintainability.

FreeLancer

React Native *Mobile Developer*   DEC 2022 - Present | Lagos, NG

Dec 2022 - Present | Lagos, Nigeria

- Built **fintech wallet apps** with secure authentication, transaction history, and payment gateway integration (Paystack & Stripe).

- Developed **ride-hailing prototypes** with maps, geolocation, and driver-tracking using Firebase and Google Maps API.

- Delivered **e-commerce apps** featuring product catalogs, shopping carts, and checkout flows.

- Implemented **education apps** with offline-first access, push notifications, and gamified learning modules.

- Worked closely with clients from **fintech, logistics, e-commerce, and education industries**, ensuring scalable and user-friendly apps.

- Deployed and maintained multiple apps on **Google Play Store** and **Apple App Store**.

🎓 Education

Federal Polytechnic Ile Oluji, Osun State,   OCT 2016 - DEC 2018 | Osun, NG

ORDINARY NATIONAL DIPLOMA (OND)– Accounting

🏆 Achievement

- **EV Charging App (EV Vine Mobility):** Built real-time app for managing EV charging sessions, payments, and station availability.

- **Fintech Wallet (Freelance):** Delivered mobile wallet app with deposits, withdrawals, transaction history, and biometric login.

- **Ride-Sharing Prototype (Freelance):** Integrated live maps, GPS navigation, and driver-tracking.

- **E-commerce App:** Created a mobile storefront with product filtering, cart, and payment checkout.

- **Education App:** Implemented offline-first course modules with notifications and gamified UI.

💡 Passion

- Excited about building **clean mobility solutions** and impactful mobile applications that make technology more accessible.

- Enthusiastic about **EV adoption, fintech, and scalable mobile-first systems**.
